

Co-op support communities during Coronavirus

Co-op has launched a gift card scheme to help volunteers pick up food and other essential supplies for people in your community who have been instructed by the Government to self-isolate at home because they are considered vulnerable in some way, perhaps because of their age or a pre-existing medical condition.

Those who are self-isolating and who are therefore reliant on others to do their shopping for them, can call a dedicated Co-op phonenumber on **0800 029 4592**.

The card can then be shared with friends, neighbours and volunteers to use on their behalf to shop in their local Co-op stores.

It's what we do
